

## DESTIN HIGH SCHOOL ADVISORY COMMITTEE

AUGUST 25, 2016

Recap Last Meeting

Feedback from Public

Research Reports

Locations (Myra, Prebble)

School Focus/Areas of Concentration

Facebook Input:

*Would you like to see DHS focus on a particular subject or field, such as foreign language or fine arts? Share your thoughts!*

- Both fine arts and foreign language!

- Math and science

[Destin High School Committee](#) Thoughts on marine science?

- Math and science and technology ...

- Fine arts and foreign language !

- Technology and fine arts . . . Destin style. Why not a school band that offers electric guitars and drum sets as a course of study? What if, instead football as a focus, we offered other sports, drama, and a variety of music options? Marine science is important, but the Occupational Outlook Handbook puts this, as a career, growing slower than average. Environment science, on the other hand, has a faster than average growth and could include marine science as part of the curriculum.
